CAPABILITY STATEMENT

Contact: Donald Brown, CEO
Phone: +1 (571) 290-4802
Email: don.brown@riverfrontservicesinc.com

Services:

- Requirements
- Architectures
- Space Systems
- ISR Systems
- Integration
- Cyber Security
- Forensics
- Post-Deployment Security Validation
- Verification & Validation
- ATO Security Process
- Data Management
- Cyber Security Risk Management

Current Efforts:

- DHS CISA SE&I (DHS premier Cyber Contract)
 - Systems/Enterprise Architecture team and Security Engineering team
- DHS Specialized Security Services (SSS)
 - Specialized Security Services
- DHS Strategic, Technology, Architecture and Data Integration (STADI)
 - OCTO
- NRO
 - Providing CYBER, Data Protection, Identity, Credentials, Authorization Attributes, Access Management, and Data Protection

Certifications:

- ITIL v3 Foundation
- Scaled Agile Framework (SAFe)
- Certified Information Systems Security Professional (CISSP)
- Certified Professional Penetration Tester
- CMMC Registered Provider Organization (RPO)
- Advanced Security Practitioner (CASP)
- ComTIA Network+ / Security+
- Cisco Certified Design Professional / Network Associate
- DHS/FEMA Professional Continuity Practitioner
- Certified Data Management Professional
- AWS Machine Learning Specialty / Developer
- AWS Solutions Architect / Sys Ops Administrator
- MS AZURE Administrator

Contract Vehicles:

- GSA:
 - IT Professional Services - 54151S
 - Highly Adaptive CyberSecurity Services - HACS

Why Us:

- 95% of staff having active US Govt clearances.
- Management Team with National Systems and ACAT I experience
- Staff of senior engineers, cyber security professionals with experience in the IC and DoD.
- 2/3rds of our employees have advanced degree

Past Performance:

- Space Security and Defense Program
 - Software/Hardware development
 - Cyber Exploitation
 - Micro/Cube Satellite Systems
- United States Air Force/AFC2ISR center Langley AFB
 - Airborne systems exploitation
- National Systems
- NRO/GED
 - Global Airborne Tracking
 - National Systems
- NRO/LSPO
 - System Vulnerabilities
- DLA
 - Systems/Enterprise Architecture
 - Reverse Engineering
